# CHHAY KHY LIM

**ARTIFICIAL INTELLIGENCE - SOFTWARE ENGINEERING TECHNOLOGY**

Scarborough, ON | 437-858-5504 | lchhaykhy@gmail.com

**ANALYTICAL | ADAPTABLE | COLLABORATIVE**

## PROFILE

AI and Software Engineering Technology student with hands-on experience in programming, database development, object-oriented design, web technologies, and software testing. Strong analytical and problem-solving skills supported by academic projects in Python, Java, C#, SQL, and application development. Brings prior administrative and student-facing experience requiring organization, communication, teamwork, and independent work.

## QUALIFICATIONS

- Hands-on programming experience with Python, Java, C#, JavaScript, SQL, and Oracle SQL.
- Knowledge of object-oriented programming, software development, debugging, testing, database design, and web technologies.
- Academic project experience building Windows Forms applications, console applications, and relational database solutions.
- Strong transferable skills in problem solving, data analysis, communication, organization, teamwork, and working with minimal supervision.
- Multilingual: Cambodian/Khmer (Native), English (Fluent), Mandarin Chinese (Intermediate).

## TECHNICAL SKILLS

**Programming:** Python, Java, C#, C++, JavaScript, Linux,
**Software:** OOP, Windows Forms, debugging, testing
**Data / AI:** Data analysis, AI concepts
**Systems:** SSH, Apache/HTTP fundamentals
**Databases:** SQL, Oracle SQL, relational database design
**Web:** HTML/CSS, web technologies
**Productivity:** PowerBI, Word, Excel, PowerPoint
**Strengths:** Problem solving, organization, teamwork

## EDUCATION

**Advanced Diploma - Artificial Intelligence - Software Engineering Technology** — **2026 - Present**

Centennial College | Toronto, ON

- GPA: 4.2/4.5
- Relevant coursework: Programming, Object-Oriented Programming, Database Systems, Web Development, Software Engineering, Artificial Intelligence.
- Expected graduation: [Month Year].

**Bachelor of Information Technology - Studies Completed** — **2024 - 2025**

Royal University of Phnom Penh | Phnom Penh, Cambodia

- Coursework and practical learning in programming, databases, web development, networking, and technical support.

## ACADEMIC PROJECTS

**Car Rental Database - Oracle SQL** — **2026**

Centennial College Academic Project | Toronto, ON

- Designed relational tables, primary/foreign key constraints, and sample data for a car rental database.
- Developed business queries using joins, filtering, grouping, and aggregate functions to retrieve decision-support information.

**Windows Forms Application Development - C#** — **2026**

Centennial College Lab Projects | Toronto, ON

- Built a Fractions Calculator using classes, operator overloading, radio-button events, input validation, and divide-by-zero handling.
- Developed an Ontario Premiers Viewer using a Dictionary, object-oriented classes, GUI event handling, and image-based record display.

**Programming Applications - Python and Java** — **2026**

Centennial College Lab Projects | Toronto, ON

- Created a Python sales-tax application using user input, calculations, timestamps, file handling, and transaction logging.
- Implemented a Java Vehicle class with constructors, setters/getters, range and fuel calculations, and an overridden toString() method.

## WORK & VOLUNTEER EXPERIENCE

**Operations Administrator** — **2024 - 2025**

JCI Cambodia | Cambodia

- Coordinated project logistics, schedules, meetings, events, and travel arrangements.
- Prepared professional documents, memos, presentations, and administrative materials.

# CHHAY KHY LIM

**ARTIFICIAL INTELLIGENCE - SOFTWARE ENGINEERING TECHNOLOGY**

Scarborough, ON | 437-858-5504 | lchhaykhy@gmail.com

- Supported multiple priorities through organized planning, communication, and independent follow-through.

**Education Expo Volunteer** **2022**

IDP Cambodia | Cambodia

- Welcomed and assisted attendees, supported schedules and event activities, and coordinated with participating organizations.
- Provided interpretation and participant support to promote clear communication throughout the event.

## SOFT SKILLS

Problem Solving • Communication • Teamwork • Organization • Creative Thinking • Adaptability • Independent Work

## LANGUAGES

Cambodian / Khmer (Native) • English (Fluent) • Mandarin Chinese (Intermediate)

## ADDITIONAL INFORMATION

- Available for software development, IT, AI, database, and technical support opportunities related to the Artificial Intelligence - Software Engineering Technology program.
- References available upon request.
